Bring LA Home: document overview

The 2006 campaign to end homelessness

The regional partnership

LACEH&H's February 2006 page described Bring LA Home as a partnership coordinated with LAHSA, supported by a 65-member panel that included people with experience of homelessness.

What the report covered

The recovered 117-page PDF addresses housing, homeless services, income, health, criminal-justice partnerships, regional priorities, and specific populations. It includes appendices on housing projections, chronic homelessness, and family homelessness.

The public discussion

KCRW's April 6, 2006 program discussed the new study alongside the county's proposed regional centers. Its page linked directly to the Bring LA Home PDF.
